Hello, Kirk. Attached is a Request for Information from EPA under its information gathering authority, Section 104(e) of CERCLA. As Eric mentioned earlier, it is important for EPA to confirm through this Information Request that it has received all information in DIL Trust's possession and control about operational activities of any of its predecessors within the Portland Harbor Superfund Site and all relevant financial information, including insurance information. Thank you for your attention to this matter. If you have questions, please call me at the telephone number below.
